REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: independent claim 1 and the respective dependent claims are allowed. The instant invention requires a weft driving system that comprises specific magnetic weft insertion driving means, specific location and operation of the magnetic drive means not shown in the prior art. In addition to the magnetic drive means there are also adjustment means with specific location and operation requirements not taught by the prior art. The instant invention utilizes these novel requirements to greatly reduce noise, vibration and maintenance costs often seen in conventional weaving processes.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
